

ODYSSEY

The monthly newsletter from the Space Science
Environmental & Engineering Foundation.

A LOOK AT GSDC 2022

The Global Space Design Challenge residential programme took place in July at Imperial College, London. This exciting, educational and intense event ran for 11 days and included visits to Oxford and Cambridge Universities, lectures from top academics and a GSDC competition. Students from all over the world, including Malaysia, Hong Kong, U.K, Austria and Germany attended the programme. [Read More](#)

MOON FACTS

MOON FAST FACTS

- The Moon is Earth's only natural satellite and the fifth largest moon in the solar system.
- The Moon's distance from Earth is about 240,000 miles (385,000km).
- The Moon is 1737.4km in radius.
- The Moon's presence helps stabilize our planet's wobble and moderate our climate.
- There is water on the moon!
- The Sun and the Moon are not the same size.
- The Moon is drifting away from the Earth.

CAREERS IN SPACE

Glaciologist - Ann Hogg

GOOD NEWS STORIES

Do you or your school have a good news story about taking part in one of our events?

If you do, we'd love to hear from you so we can feature it in one of our newsletters.

Get in touch with any good news stories!

[Here's How](#)

GET INVOLVED

If your school would like more information on any of SSEF's programmes, please contact Nichola Dale - n.dale@ssef.org.uk

Other ways to get involved with the SSEF

THANKS TO OUR SPONSORS

Our Sponsors

Students will never forget the people they meet, the friends they make, or the supporters who help them. Backing the SSEF is not a one-way street. Sponsorship is as advantageous for you and your future as for the young designers and explorers of tomorrow.

Thanks for reading. If you value our non-profit, non-partisan newsroom, please consider a [donation to SSEF](#).
